

Leading Edge Plus™

STARTER STRIPS

The easy way to create a precision edge on your next roof!

Leading Edge Plus™

STARTER STRIPS

The latest evolution of starter strip.

By installing Leading Edge Plus shingles along the eaves and rakes, you have a straight guide for laying the first course of shingles and trimming the overlying courses. The sealant strip along their bottom edge creates a tight seal to protect shingle ends against wind damage and reduce shingle blow-offs. You no longer have to waste time and material cutting regular shingles to size.

So what is the advantage of using IKO's Leading Edge Plus starter strip shingles?

Leading Edge Plus shingles are fast, easy and convenient to apply. They can be used with any manufacturer's asphalt shingle, not just IKO's.

Leading Edge Plus starter strip shingles are perforated down the middle so you get two starter strips out of each one, and you don't even need a knife to cut them, which will save you valuable time.

Leading Edge Plus gives you 36 starter strips per bundle. Each shingle is more compact, yet yields twice as many strips. So you really can do more with less.

Try Leading Edge Plus on your next project!

PRODUCT SPECIFICATIONS

Length	40-7/8" (1038 mm)
Width	7-7/8" (200 mm)
Shingles per bundle	18 x 2 = 36
Coverage per bundle	123 lin ft (37 lin m)
Bundles per skid	45

Note: All values shown are approximate.

PROFORMAX™

INTEGRATED ROOFING ACCESSORIES

Shingles alone are usually not enough to protect your home. IKO has developed superior multilayered roofing components incorporating our industry-leading products. A complete roofing system ensures your roof's optimum performance.

- 1. Deck Protection.** GoldShield™, ArmourGard™, IKO StormShield® Ice & Water Protectors and IKO GoldSeam™ Roof Sealing Tape
